

# Thode

KNIFE & SAW LTD

**Thode Knife & Saw Ltd are proud to introduce the Wearmaster Counter Knife**

TWP's WearMaster Counter Knife is specially designed to give our customers **3 to 5 times the life** of a steel counter knife. Increasing the life of counter knives drastically reduces high cost maintenance expenditures. WearMaster Counter Knives also reduce wear on holders, thereby decreasing replacement parts cost.

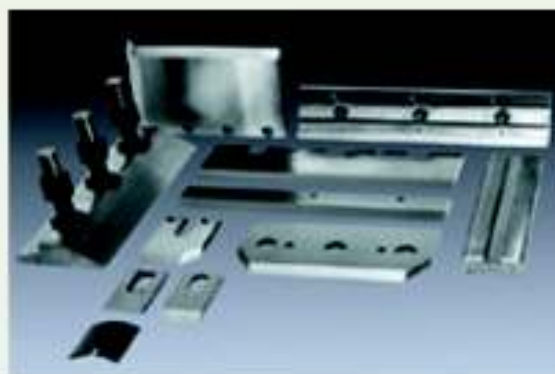

One Piece WearMaster Counter Knife

Split WearMaster

The WearMaster Counter Knife is also provided in splits. By using splits our customers can extend life by switching unworn ends and **reduce maintenance costs 20 to 30%**.

***REDUCED WEAR MEANS BETTER CHIP QUALITY!***
